Project Title	* CREATIVE * Training Design, Curriculum Development, Website Design
Project Summary	Looking for a team of creative interns to develop and design dynamic effective web-based training curriculums for Indian Health Service (IHS), Purchased/Referred Care (PRC) to utilize to teach users about the Purchased/Referred Care (Federal/Tribal) program.
Country	United States
Country/Region of Focus	United States

Project Description

We are looking for a group of creative and energetic individuals who can work collaboratively with IHS, Office of Resource Access and Partnership, to design and create various effective learning web-based training modules for PRC program staff to use for learning and credentialing purpose. The training will be provided to local IHS and tribal PRC program, advises and mentors key staff in planning, implementing, operating and program evaluation training for the PRC program of the Indian health system. The interns shall develop and write all training materials in plain language. Each module should be created in interactive, user-friendly, web-based compatible format. The modules shall consist of: relevant PRC policies and procedures, learning objectives, learning resources, learning activities, and evaluation methods. The materials shall include but are not limited to: interactive web-based training curriculums, images, visual design elements, short engaging videos, and PowerPoints with audio to go with each of the lesson. This role will often take direction from either written and/or spoken ideas to be converted into images, layouts and designs. All materials created must be compliant with Section 508 of Rehabilitation Act. All videos shall be MP4 files and have transcripts (.txt)/closed caption (.srt, .scc) files.

If you are looking to use your web design skills and want to bring your ideas to develop dynamic web-based training curriculums for our users, this is your place!
